Additional information

Description

Stock #488106 - LOADED MALIBU 23 LSV WITH WAKE HULL, SURF GATE, POWER WEDGE, MALIVIEW, UPGRADED AUDIO & TRAILER! This 2013 Malibu Wakesetter 23 LSV combines the performance, technology, and spacious layout that helped make the 23 LSV one of Malibu's most popular wake and surf boats. Powered by an Indmar Monsoon 350 SS with approximately 687 hours and paired with a V-drive, this Malibu offers a strong combination of watersports capability and room for cruising and entertaining family and friends. The seller confirms this 23 LSV is equipped with Malibu's Wake hull along with Surf Gate, the Power Wedge, and factory ballast. Surf Gate allows the surf wave to be created on either side of the boat, while the Power Wedge and ballast system provide additional control over wake and wave characteristics. At the helm, the MaliView display and Malibu touchscreen control system put the boat's major functions within easy reach. The seller reports the MaliView display, touchscreen, Surf Gate, and Power Wedge are operational. The open bow and spacious wraparound cockpit provide plenty of seating, while the broad rear sun pad and swim platform make it easy to transition between riding and relaxing. The wakeboard tower is topped by a bimini for shade during long days on the water. The audio system features Rockford Fosgate and JL Audio components, including JL Audio speakers and a subwoofer. Performance hardware includes a Nibral propeller and marine-grade bronze rudder assembly.A major recent service and repair visit at Lake Area Watersports totaled approximately $5,646. Work included engine oil and filter, raw-water impeller, spark plugs, distributor cap and rotor, plug wires, belt, fuel filter, transmission fluid, injector cleaning, intake cleaning, electrical grounding repair, bow ballast pump replacement, trailer harness replacement, and replacement of the alternator. The

shop also performed a water test and ECM calibration/misfire-counter work related to the previously reported cylinder #1 code.A compression test was subsequently performed on all eight cylinders, with readings ranging from 200 to 210 PSI. The seller is the second owner and is selling because he plans to upgrade to another boat. A dual-axle EZ Loader trailer is included. If you're looking for a 23-foot V-drive with the Wake hull, Surf Gate, Power Wedge, Malibu touchscreen technology, premium audio components, a trailer, and substantial recent service, this Wakesetter 23 LSV deserves a closer look. Please submit any and ALL offers - your offer may be accepted! Submit your offer today! Reason for selling is upgrading to another boat.
