### Additional information

Description

Stock #501377 - 2019 ROBALO 226 CAYMAN CENTER CONSOLE White / Seafoam Green! WITH YAMAHA 200 OUTBOARD, INCLUDES COYOTE TRAILER! The 2019 Robalo 226 Cayman stands out as a highly versatile, single-hull bay boat engineered to bridge the gap between shallow-water fishing flats and choppy coastal bays. Measuring 22 feet 6 inches with a stable 8-foot 6-inch beam, this model features an aggressive bow entry that carves through waves smoothly, tapering down to a 15-degree deadrise at the transom. This clever design yields a shallow hull draft of just 12 inches when the outboard motor is raised, giving anglers exceptional access to shallow bays and backcountry flats. Built entirely without wood, the boat relies on a rugged, one-piece fiberglass structural grid injected with sound-dampening foam to deliver a quiet, rock-solid ride. Under the hood, the boat is optimized around a 200-horsepower Yamaha four-stroke engine that pushes the vessel to a top speed of over 45 miles per hour while retaining highly efficient cruising consumption of roughly five gallons per hour. The open deck layout maximizes usable space, abandoning enclosed overnight berths in favor of an expansive day-boating environment that comfortably holds up to eight passengers on a variety of folding and cushioned seating arrays. The absolute pinnacle feature of this model is Robalo's proprietary Extended V-Plane hull design. The extended bottom surface forces water downward to lift the stern rapidly upon acceleration, resulting in a blisteringly fast time-to-plane of just 3.4 seconds and a minimal bow rise that keeps the captain's forward vision clear at all times. Advanced shallow-water durability is highlighted by a genuine Kevlar-reinforced keel. The boat's dual-zone, tournament-ready livewell system provides a massive 50 gallons of total bait-keeping capacity. This configuration splits the volume into an easily accessible 20-gallon well integrated into the forward bow deck and a larger 30-gallon well built directly into the aft casting

platform. Both tanks feature independent, high-volume aeration pumps, blue-tinted interior gelcoat to reduce bait stress, and rounded corners that prevent live fish from getting trapped or injured. This dual layout allows serious anglers to keep separate species of live bait healthy and vibrant at opposite ends of the boat simultaneously without interrupting the workflow of multiple fishermen. Minn Kota trolling motor and Garmin electronics are included in the boat sale. This listing has now been on the market a couple months. Please submit any and all offers today! Reason for selling is downsizing. At Pop Yachts, we will always provide you with a TRUE representation of every vessel we market.
