Description

Stock #512097 - Carver 35 Super Sport Fly Bridge 2007 - Excellent condition! Loaded with upgrades! Spacious, immaculate interior, ready for your next adventure! The 2007 Carver 35 Super Sport delivers the kind of generous, livable space that defined Carver Yachts for generations. Built in Wisconsin with the brand's signature emphasis on practical volume and solid American construction, this flybridge sedan was engineered to feel larger than its length suggests. Carver's reputation for intelligent layouts and durable fiberglass hulls shows throughout: the elevated side decks create a true full-beam salon filled with natural light, while the modified-vee hull and robust build provide the confidence and ride quality owners have long associated with the name. Stepping inside the full-beam salon, the updated decor includes designer fabrics and beautiful cherry wood cabinetry with ample storage. A large L-shaped sofa offers storage space, as well as a dinette table and movable cushioned benches with additional storage beneath. Two steps down, there's a full galley. With Ceran glass-top electric range, built-in microwave/convection oven, upright refrigerator/freezer, coffeemaker, Corian solid-surface countertops, and enough cabinets to maximize storage. Forward lies the master stateroom with its queen island berth, pillow-top innerspring mattress, and private access to the head. The midships guest cabin adds flexible sleeping arrangements--twins that convert when needed--while the full head includes a separate enclosed shower stall, vanity, and electric toilet. With 6 feet 7 inches of headroom and thoughtful storage throughout, the interior supports comfortable overnight stays without compromise. Outside, the versatile cockpit opens through a transom door onto an extended swim platform, inviting easy access for swimming, watersports, or simply enjoying the water. Molded steps lead to the spacious flybridge, where comfortable seating

surrounds a well-equipped helm that offers excellent visibility for relaxed cruising. Whether configured for extended voyages or weekend entertaining, the layout keeps movement natural between the bridge, cockpit, and cabin. Performance and onboard systems match the design. Twin Crusader inboard engines deliver responsive power, with typical cruising speeds around 20-22 knots and a top end near 28 knots, backed by an impressive 311-gallon fuel capacity that ranks among the largest in its class. Other features include air conditioning, a Kohler generator for independent living, and the Carver Docking System with bow and stern thrusters for effortless handling in tight marinas. From its solid hull construction and efficient use of beam to the refined finishes and family-friendly accommodations, the 2007 Carver 35 Super Sport remains a standout example of Carver's approach to accessible luxury on the water. It is a boat built for those who value real living space, straightforward reliability, and the pleasure of time spent cruising and entertaining in style. Come see this beauty for yourself today, and get ready for more fun on the water! This is a brand new listing, just on the market this week. Please submit all reasonable offers.
