Experienced Sales + Customer Service
The key...great customer service. We love the marine industry and one of our core missions is to help raise the customer service bar in this industry.

However, the internet has completely transformed the way we do business. While traditional sales principles still very much apply (such as building a solid relationship with the customer, earning their trust, adding value, customer qualification, etc), how you get there is now very different. Seafarer Fiberglass Yachts, Inc., of Huntington,
New York is a builder with a great history. They
began as the US distributor for Swiftshure,
Meridian, and Ranger... all designed by Philip
Rhodes. Around 1965, they added a 31 foot design
by Bill Tripp.

This one is a nice clean example of their work. It is
the 28th boat built in this series. The layout features
a spacious open floor plan with tons of storage.

The forward stateroom has a private entrance to the
head and the berth has an updated mattress (made by
Purple).

The boat is perfect for getaways and could be used as a liveaboard.
