Vessel Walkthrough

Swim platform/Aft Deck:
Starting from the starboard side of the swim platform - go up the transom ladder to the aft deck. This area makes for a great place to observe activities of the day and is a super spot for entertaining. Just off the centerline left and forward is a phone booth style entry and to the right is a wet bar with hard surface counter top, sink with storage cabinets below and ice maker. The side of the cabinet features a fresh water deck wash-down. Forward to the port side left of the entry are the stairs to the bridge deck.

Bridge

Bridge: Here you will find a well laid out centerline helm station with full complement of electronics to make navigation a joy. You will notice quite a spacious and well laid-out area for entertaining guests. Your guests will be seated both to the port and starboard side and just aft. Seating will accommodate 8 or so adults and below the cushion is generous stowage for PFDs, equipment, etc. Views from the bridge deck are

spectacular and evening
cocktailing with
unobstructed views would
be very relaxing. Shade is
provide via folding
Bimini with a full
enclosure.

Deck

Side Decks/Foredeck:

Once again from the aft
deck to both the port and
starboard side and
forward you will find nice
wide side decks. The port
side has a pilot house
door for immediate lower

helm access. The side decks additionally feature high stainless steel railings with stainless life lines making boarding and foredeck access very safe. Walking toward the foredeck you will notice a large deck area that can be used for sunning. The forward-most area of the deck features an electric anchor windlass with deck controls, two fender carriages and clear access for handling lines and assisting while in docking mode. The forward deck is well thought-out and very purposeful in design.

â€¢Twin Anchor System
- (1) Stainless Plow with 200' of 3/8" chain (1)

Lanforth Anchor with 50' of 3/8" chain and 300' of Rode. Both are positioned at the bow

â€¢ (6) Batteries: Trojan
Golf Cart

â€¢ Battery

Charger/Inverter

â€¢ Handheld Search

Light

â€¢ Bilge Blowers

â€¢ (2) Electric Heads

â€¢ Macerator

Accommodations

Master Suite:

The entry to the master is located at aft salon and slightly toward center from the starboard side and down 3 stairs. The queen berth is positioned to the port side with the head board pointed to the stern. There is an in-suite wet head. Adjacent to the head on the centerline bulkhead is a built-in vanity. This master also has a connecting cabin with settee hanging locker, drawers and hidden washer dryer combo unit. There is another shower compartment here too. The aft or master suite has plenty of natural light with operational window and overhead hatch for good ventilation.

Other Accommodations

Guestâ€™s Mid Cabin:

The guestâ€™s cabin is located directly across from the galley to the starboard side. This cabin has a double berth with stowage under, a hanging locker and port light window. Because of the close proximity to the galley the owner has placed a stand-alone freezer in this cabin for increased capacity and also uses some of the

cabin space for dry goods. The day head is positioned forward of this cabin on the starboard side (no adjoining access). The day head is a wet head - this allows for a much larger head configuration. Here you will find an electric toilet, a marble sink, assorted storage cabinets, a port light for ventilation, a large mirror and heavy teak great with sump drain under. This is a very nice size common head.

Forepeak Guest Cabin:
Exit the common head into the companionway and forward through the bulkhead with privacy door. This cabin features an offset berth for two positioned to the starboard side with draws below. Positioned to the port side is a vanity with hanging locker next to the entry. There are two port light windows and overhead hatch for natural light and ventilation.

Salon

Salon: From the aft deck and forward enter the salon through the double door phone booth style entry and down 4 stairs to the salon. Here is where you will begin to get a sense of how spacious this

42 really is. The 14â€™™ beam allows for some great room over lesser beam 42â€™™s. The salon features a full length starboard side L-shaped dinette seating area with good storage space under cushions. The dinette has an insert to convert to a double sleeper for overflow guest; with three staterooms, I am sure this berth will get only infrequent use. To the port side there is a built-in hidden bar and entertainment area. Forward to port is the pilot house door with compact lower helm alongside.

The lower helm on this model vessel is very interesting in that it is compact and provides full features, but at the same time blends in with the rest of the salon and almost goes unnoticed. The salon also features large windows on all sides with top quality drapes and exterior window coverings. The floor is covered with teak parquet and quality carpet over. In addition you will find the usual upscale teak joinery. This owner has opted hunter green carpeting for the stairs and a soothing subtle green drapes and taupe

carpeting. The salon gives an inviting comfortable feel and affords generous space for entertaining and relaxing.

Galley

From the salon and forward and down three stairs you will find a well-equipped galley located to the port side. The galley features an upgraded granite counter, a large stainless steel sink, upgraded full sized refrigerator/freezer, and large three burner stove with oven.

There are teak cabinets above and below the counter for cooking utensils, pots, pans and dry goods.

â€¢ Full Size Whirlpool Refrigerator

â€¢ Litton Microwave

â€¢ Single Stainless Steel Sink

â€¢ Cabinets: 3 above, 1 below and 6 Drawers - all teak

â€¢ Stove: 3 Burner - Wedgewood Vision with Oven (Propane)

â€¢ Granite Countertop

Note: Galley Storage and Avanti Freezer extend to Mid Cabin Guests

Quarters (shares space).

Freezer top also serves as a nightstand.

Engines

The engine room quick check access is located amidships on the bulkhead under the stairs to the galley. If full access is needed, practically the entire salon floor is removable. This is exceptional considering full access can be gained in just minute for complete engine and machinery access.

Twin Perkins 6-354's
Diesels 1989. 200

This vessel is offered subject to prior sale, price change, or withdrawal without notice.

We are very pleased to offer â€œWITâ€™S
ENDâ€™ for worldwide sale! This

Hershire-Jefferson has been used well by the current owner of eight years for cruising to and touring the Bahamas year after year. The vessel has been steadily upgraded and machinery well cared for by a lifelong cruiser and knowledgeable owner. The vessel features Perkins Twin 200HP turbo diesels which are showing just over 1400 original hours and deliver a cruising speed of 8 Knots @ 1400 RPM. Also, there is an Onan 8 KW generator showing 2060 original hours (will power everything).

This is a four cabin floor plan with master in-suite head and side cabin conversion. The plan will sleep six in three private cabins with two more guests in the salon, if needed. She features an expansive salon with galley down configuration. A full lower helm with up to date Furuno electronics. Other features included for cruising are 4000 watt inverter; 400 gallon a day water maker; three AC units (total 32,000 BTU); Laundry room; a dinghy with 15HP Yamaha and electric launch davit. Please continue to full specifications for a

comprehensive equipment
list and further
information.

If you are looking for a
rock solid ready Cruiser
with a desire to see the
Bahamas; the Loop or a
