Holding: yes

Construction and Layout

Details

The vessel features all welded steel construction with $\frac{1}{4}$ " plate. The deck house is built from $\frac{3}{16}$ " plate. The frames are 3"x 2"x $\frac{1}{4}$ " on 24" centers, and five water tight bulkheads show solid construction and safety were first priorities. The raised pilot house has a center helm with great visibility through six safety glass windshield panels, two side windows

and side doors to the wing decks. Behind the helm is the master stateroom (captains quarters) which features a queen berth and private head with a tub and shower. The interior arrangement is a forepeak tank for ballast and a 18" round escape hatch, skylight. Next is a crew head with tub and shower to port and two cabins with two beds each to starboard. The port side passageway has a laundry center with a RCA washer and an Amana dryer, a deep freeze freezer, and a ladder which provides access to the main deck level. The main deck has a salon lounge with three sofas, an entertainment center, and a wet bar with icemaker. Aft to starboard is a guest stateroom with twin berths, followed by another guest stateroom with a double bed. To port is an additional guest stateroom, again with a double berth. Next to starboard is a guest head with a tub and shower, followed by the galley. To port is the dining area with two tables and comfortable seating for twelve.

The galley is fully equipped with GE refrigerator, a Kenmore electric stove with 4

burners and oven with overhead exhaust fan. There is a Kenmore dishwasher, a Sharp Carousel II microwave oven , a Kenmore trash compactor, and an additional ice maker. On the top deck there is a 3' stainless steel charcoal grill and a Charbroil gas grill with three steel 20 pound propane tanks.

Exterior Specs

This spacious vessel has three deck levels. Aft on the lower deck level is the engine room. The main deck houses the spacious salon in addition to several more fully complimented guest staterooms previously mentioned. There are wing doors accessing the side decks and an access door from the dining area to the all business dive cockpit. There is also a large water tight access hatch that provides entry from the aft deck to the engine room. The cockpit has an additional helm station which makes docking the boat or locating just the right dive spot a breeze. From the covered cockpit there is access to the more than ample custom dive platform. Just forward of the dive platform is the very convenient dive tank

fill valves and dive tank storage. The upper deck is comprised of the pilot house and the master stateroom/Captain's quarters. Aft of the master stateroom is an open deck area with the gas grills and picnic tables. This also doubles for a classroom to give dive lessons and practical instruction. There is an electric winch which has a dedicated 8D battery and storage for a dingy. The ground tackle is a 60 pound Danforth anchor with bow roller with 6' ½" chain and 240' of 1.25 nylon 3 strand rode. A Fortress FX aluminum anchor with 6' of ½" chain and 240' of 1.25 nylon three strand rode. There is also a Danforth 40 pound anchor and a Danforth 70 pound anchor. An Ideal electric anchor windlass with two capstans allows multi-anchor deployment and retrieval in one unit. The dive platform is full length stainless steel pipe and FRP grate with 2 aluminum dive ladders.

Electronics and Entertainment Equipment Specs

There is full compliment of electronics and navigational aides: three VHF radios, two Standard

Horizon and one Apelco.
There is a Sea SSB 222 with an automatic antenna tuner. There is a Garmin 128 GPS and a CPU plotter (IBM model E series 230 with a NEC monitor) utilizing Map Tech Professional, and a Panasonic printer to save locations, a Standard Horizon DS30 depth finder, a Furuno FCV-201 fish finder, a Decca Pilot 150 autopilot, a Davis Weather Wizard Wind and Temp indicator, a Standard Horizon loud hailer. Entertainment consists of a Technics & Marantz AM/FM cassette with a Zenith amp, a Sony 19' TV, and a Sanyo VCR. There are two VHF, GPS, TV and SSB antennas.

Mechanical Specs and Details

She powered by twin Volvo Penta TAMD41PA 200 HP diesels engines with only 700 hours since major overhaul. These engines are extremely fuel efficient and incredibly reliable.

The twin 40 KW generators were installed new in 2005 and currently have only 2,000 hours on them. The electrical system is 12 volt DC with 5 batteries, group size 8D

which were replaced this year. The AC electrical supply system is 240 volts with 50 amp shore power connection and one 110' cord. Ship's service air compressor is a Quincy model 310. The air conditioner is a 196 Rheem, 5 ton with electric heat coils. The head system is an MSD. There are three manual house hold toilets with direct overboard discharge and selector valves to a 300 gallon steel holding tank equipped with a ½ HP trash evacuation overboard discharge pump. The water system has integral steel tanks with a total capacity of a whopping 4,000 gallons. The system is pressure on demand with copper plumbing lines and two 30 gallon Reliance and Richmond electric hot water heaters. There are fresh water and sea water wash downs on the aft deck as well as a handy outdoor shower on the aft deck. An SK 500 Gallon Per day Watermaker provides plenty of fresh water if out at sea for extended periods. The dive air system is a McWhorter Engineering Company Model ESAC. The air compressor is a Worthington 18.5 CF t 3000 psi. It has 4000 CF

air flask for dive air.

The main helm steering station has a 24" teak wheel with EMI rudder indicator and the aft deck helm station has a 24" stainless steel wheel. The steering is a Charlynn hydraulic system with a 2 HP electro-hydraulic pump.

Safety Gear

There are 43 adult PFD's 7 child Type 1 and three 24" life rings. There is an EPIRB ACR class A, fog bell, dual air trumpet horn and a Perko 9" remote spot light. There are 3 Jim Buoy 15 person life rafts.

Broker Remarks

Recent refit work
included a complete hull,
cabin and deck house
painting.
This is an excellent
opportunity for anyone
seeking a
COMMERCIAL dive
boat that is fully equipped
and ready to go. The sale
of this vessel could
include the currently
operating dive business
and the very hard to
obtain 'Grandfathered'
dive charter license (no

more being issued)
currently located in
Roatan, Honduras,
Central America, but is
not included in this
drastically reduced asking
price.
