Interior

With an interior designed for long term comfort, this yacht is as much at home as a liveaboard as it is for a several month cruise to wherever you wish to go. The all teak interior is in fantastic condition as is the teak parquet flooring found throughout the entire yacht.

The after master stateroom is huge and features a queen centerline island bed, a dressing settee, an ensuite head with sink, shower and good sized and usable TUB, vanity with storage, and new Vacuflush head

system, built-in nightstands and dressers, opening rear bulkhead hatch, high hat Halogen lighting, bedside reading lights, two opening slider windows, and a hideaway TV.

The VIP stateroom is forward and features a centerline queen bed with storage below, teak parquet flooring, generous cedar hanging lockers port and starboard 110V GFI outlets, reading lights bedside and overhead Halogen high hat lighting, opening port holes and overhead hatch, rope locker access, and has direct access to the guest head with separate stall shower, hot/cold sink with storage below, vanity with mirror, and new Vacuflush head system.

The guest stateroom is to starboard of this guest head and features over/under bunks that are quite large, two opening portholes, hanging locker and below berth storage, teak parquet flooring, and a built-in nightstand.

In the companionway are the washer and drier units, cleanly hidden away behind attractive louvered teak doors.

The roomy and bright salon features 32" flat screen TV with a Toshiba VHS and DVD player, a

new Sony AM/FM/CD stereo system, and a speaker selection station to allow full control of where you want the sound. An L shaped leather sofa and a high back leather chair with matching ottoman, a teak hi-lo folding leaf coffee table which doubles as a generous dining table, storage galore, and a beautifully built-in very large hideaway book case. The lower station helm is to port with full instrumentation and has a 2-3 person settee at the station. Opposite is the fully equipped galley with updated full size frig/freezer, trash compactor, microwave oven, 3 burner cook top, double SS sinks, extra 110V GFI outlets, and generous storage above and below the good sized countertops.

Exterior

Forward deck features include: 50/50 windshield bra to block the sun yet allow clear visibility out from within, windshield wipers, tall all welded SS bow rails for safety and security, a beefy bow pulpit with dual capacity capstan windlass for both rope or chain and with deck mounted foot control, an electric remote controlled spotlight on the

hardtop, rail mounted SS fender racks for added convenience, and generous side decks for easy forward access. The aft deck area features a fiberglass hardtop with full enclosure, dive tanks racks port and starboard, a transom door to access the custom cockpit, a custom flush mounted hideaway 2 burner stove, sink, refrigerator, 110V GFI outlet, all built into a convenient storage center. There is a tasteful deck furniture set including settee, coffee table, and 2 chairs with ottomans for casual entertaining, as well as an attractive aft deck carpet for barefooted comfort.

The custom cockpit features a transom door, side boarding stairs, a transom door, washdown, and a fiberglass swim platform and ladder. This cockpit is a great added feature, making docking and line handling easier, as well as for all watersports from diving to swimming to fishing, making this motoryacht far more versatile than comps without one.

The roomy flybridge is protected by a custom fiberglass hardtop and full enclosure. The settees have been recovered in very comfortable

Sunbrella acrylic marine fabric, far more comfortable than sticky vinyl upholstery on a hot day, or hard vinyl on a cold one.

The center helm station provides the best possible view for docking and everyday running, with all gauges and electronics in easy view and all necessary controls within easy reach. A large chart station to starboard makes navigating easy and the added storage below is a big plus. There is hydraulic steering, a SS shipâ€™s wheel, 110V GFI outlet, and storage cabinets built in below the helm. With generous settees for guest and a bridge table for convenience, this yacht has it all. There is easy access up to the aft hardtop which holds the chocks and low profile electric davit for the 2006 11â€™ 110 Sport Boston Whaler dinghy which features console helm steering and a bimini top, and is powered by a 4 stroke 25 HP Mercury outboard.

Electronics

Updated with a new 12â€™ Garmin color screen with radar and GPS chart plotter. There is also a SEA SSB radio, Northstar color

GPS/plotters upper and lower stations, Icom VHF radio upper and lower stations, FloScan fuel flow meters upper and lower stations, Robertson autopilot upper and lower stations, Lowrance 3400 computer depth finder upper and lower stations, and a compass upper and lower stations.

Mechanical

Powered by dependable Cummins Diamond Series 6CTAs with 400HP (most Marquesa models only have 315HP B series engines, so these CTAs are a big dollar upgrade). The hours are 3100 original, and they have had excellent maintenance, and with these being the detuned 450HP engines, engine life is greatly increased and will provide many more years of reliable running for you as the proud new owner. A 15KW Westerbeke genset and 2500 Watt Heart Interface inverter handle your 110V needs while underway, and the 650A shore power service takes care of those needs while dockside. Other notable features include two 16,000 BTU and one 12,000 BTU reverse cycle MarineAir air conditioning systems, all updated not long ago,

Groco sea strainers, Racor fuel/water separator filters, constavolt battery charger, trim tabs, aluminum aircraft style engine room acoustical and thermal insulation, and a 110V hot water heater.

Comments

You will not find a cleaner, more desirable quality built yacht like this, so I suggest seeing it now before someone else beats you to it, so do please call us today to schedule a showing appointment or to make a formal offer.

This vessel is offered subject to prior sale, price change, or withdrawal without notice.

\$40K price reduction by owner to make this the next 50MY sold. All formal offers will be considered.

Owner will also consider

trades of an express, open center console, or center console cuddy in the mid 30' range.

This finely maintained yacht is without a doubt in gorgeous condition in and out. From its gorgeous teak interior to its gelcoat, to its engine room, you will be impressed how well it shows.

This is a one of a kind yacht with an original factory built custom cockpit added to their ever popular 46â€™™ Marquesa motoryacht. Also a 611â€™™™ Boston Whaler with 25HP Mercury 4 stroke outboard included in sale.

An upgraded fuel from the factory of 780 gallons, adds tremendously to the range versus the usual 500 gallon tanks.

Water tanks also upgraded from the factory from 250 to 300 gallons.

Low profile dinghy davit Custom aluminum 1/4 tower with hardtop with full enclosure

Sunbrella fabric bridge cushions

Aft deck hardtop w/ full enclosure
