### Engines

Engine Brand: Caterpillar

Engine Model: C32 ACERT

### Tanks

Fresh Water Tanks: (1000 Gallons)

Fuel Tanks: (7400 Gallons)

Holding Tanks: (375 Gallons)

### Accommodations

This Moving "Work of Art" establishes a new standard for luxury Motor Yachts worldwide. Her inspirational design combines the finest composite finish work with a dazzling custom interior and a pedigree of performance and structural integrity.

The 125 is built to perform at speeds in excess of 20 knots with a great deal of attention given to keeping the boat light wherever possible and lowering noise levels throughout. As if luxury, performance and quiet weren't enough, the 125 takes innovation to another level of "green".

Green was a key consideration during all phases of construction. Green elements aboard include Bamboo textiles that have been incorporated into various areas, and LEED-certified EcoDomo recycled leather tiles in the galley and wheelhouse soles.

If you value nearly flawless workmanship and top-of-the-line materials, then the 125 will not disappoint you.

### Salon

Rosewood is the predominant choice for woodwork with Makassar ebony accents throughout on the paneling and built-ins throughout the yacht.

The wall panels in the entryway are covered in woven bamboo fiber with hand-pulled leather gracing the door panels and drawer fronts.

Upon entering the main deck Salon through a double curved-glass door aft, there is the dining table, itself a showpiece with a backlit onyx top. It's the perfect complement for entertaining up to 20 dinner guests. Just forward in the salon is a casual seating lounge area featuring a 63" Samsung video screen, full entertainment center and a vaulted overhead that provides nine feet of elegant headroom. A perfect place to gather after dinner and enjoy your after dinner cordial or watch the latest premier!

The dramatic staircase rising from the main-deck foyer to the Pilothouse appears to be suspended in mid-air.

In reality, it's engineered with state of the art polished stainless and cables offering high-tech drama with its complex angles. If you look closely, you'll find those same angles repeated in the flybridge stanchions, table bases and elsewhere throughout the yacht.

Opposite the staircase, on the port side of the vessel, is the convenient day head and entrance into the spacious galley.

As we continue going forward on the starboard side of the yacht, we approach the entrance to a full beam Owner's Suite with its casual elegant appointments and large windows for panoramic views.

Salon:

• 63" Samsung 3D Plasma Television

• 10" Martin Logan Dynamo Subwoofer
