Precio: \$ 1,450,000  
:  
2004  
Tipo de motor: Twin  
Combustible: Diesel  
:  
2004

### Información Adicional

Descripción:

AZIMUT 85

ABOUT AZIMUT

In the 1990s Azimut broke away from the pack and became the largest selling brand of large motoryacht in the world. For over 15 years it has held that distinction and as time goes on not only do Azimuts boats continue to be the most exciting spectacles in

fiberglass production  
motoryachts, but more  
recently their quality  
reliability has improved  
markedly, as well. The  
Azimut 85 is their most  
popular large yacht and  
more of this 85 model  
have been sold than any  
other brand. Not  
surprisingly, each year it  
simply keeps getting  
better and better.

Every boat starts to look  
wonderful when the  
season starts, but the  
Azimut 85 always stands  
out from the crowd.

This 85 is something very  
special, with performance  
to match its exciting  
looks.
