Experienced Sales + Customer Service
The key...great customer service. We love the marine industry and one of our core missions is to help raise the customer service bar in this industry.

However, the internet has completely transformed the way we do business. While traditional sales principles still very much apply (such as building a solid relationship with the customer, earning their trust, adding value, customer qualification, etc), how you get there is now very different. It used to be that a customer valued a solid handshake and an honest smile. In a traditional face to face environment, skilled salespeople could qualify a customer based on body language, personality type, etc. In today's internet age, many buyer

Large 24 ft. barge for you to load, haul whatever you need across the lake

This is a fully functional work barge that is primarily being used in construction. The barge has a deck area measuring 24'L x 8.5'W load capacity of 15,000 pounds. It has a relatively new pilothouse built with marine-grade plywood.

The barge is powered by a Mercury 125 EFI 4-stroke engine with an estimated 73 hours on it. The engine sits on a bracket aft of the 8' x 24-foot barge.

The hull is marinated steel with 2" x 10" deck planking. The barge is used to haul equipment and supplies across the lake for clients, and outsourced to other service companies.

There is also a larger barge (30'L x 8.5'W) offered for sale with a salvage boom and piling driver.
