About Us: POP YACHTS SALES
Experienced Sales + Customer Service
The key...great customer service. We love the marine industry and one of our core missions is to help raise the customer service bar in this industry.

However, the internet has completely transformed the way we do business. While traditional sales principles still very much apply (such as building a solid relationship with the customer, earning their trust, adding value, customer qualification, etc), how you get there is now very different. It used to be that a customer valued a solid handshake and an honest smile. In a traditional face to face environment, skilled salespeople could qualify a customer based on body language, personality type, etc. In today's internet age, many buyer

2021 JOHN WELSFORD PELEGRIN. Ready for
the next adventure.

This John Welsford Pelegrin is a home-built sailboat from a purchased design plan. The builder has been a wood craftsman for many years and it shows in the fit and finish.

She is built from Okoume plywood and the frame is Douglas Fir and white oak. West Systems was used for the resin.

The cockpit is roomy for this smaller craft with storage compartments below the seats. There is a nice bimini to shade for day-long sails! The cockpit has color-coordinated cushions. There is a tiller with a transom-hung rudder.

There is space below for four to cool off or duck out of the weather. There are two decent bunks that make overnighting comfortable, and enough

headroom to move about without risk to the scalp. The opening ports and front hatch have screens and are leak free.

Storage is plentiful, and there is an area forward of the berths designed for a stove. A portable head can be stowed in its own locker under the companionway steps, and there are bookshelves under the powder-coated port lights.

The outboard engine fits in a half well so it is easy to get it running or work the throttle, but it won't fill the cockpit with fumes either. Included is a tiller pilot for ease of handling. The owner installed a 10 gallon fuel tank.

On deck, the mast is fitted in a tabernacle, which makes it easy to rig even single-handed, and with its versatile and powerful gaff mainsail, the mast is shorter making it easier to handle. To add to the ease of handling she has a roller furling jib and a windlass.

This Pelegrin by John Welsford is a newer design that has only been out for a few years so she is still a unique design in the United States!

We are looking for people all over the country who share our love for boats. If you have a passion for our product and like the idea of working from home, please visit [WhereFreedomTakesYou \[dot\] com](http://WhereFreedomTakesYou.com) to learn more.

This listing is new to market. Any reasonable offer may be accepted. Submit an offer today!
