The key...great customer service. We love the marine industry and one of our core missions is to help raise the customer service bar in this industry.

However, the internet has completely transformed the way we do business. While traditional sales principles still very much apply (such as building a solid relationship with the customer, earning their trust, adding value, customer qualification, etc), how you get there is now very different. This 1993 FOUNTAIN 27 FEVER is a great performance boat!

The boat hails from RI. The current owner purchased her in 2020 from a private seller. The current owner reports that they have not been able to use the boat as they had planned and it is the current owner's understanding that the previous owner they purchased the boat from had refurbished the boat.

The Fountain boats are built to perform gracefully on the water with no fear of her skipping, chine walking, or sliding, like many of the rivals do.

This boat has been waiting patiently to get back out on the water and do what she does best and that is to provide a wonderful experience on the water.

She's fast, sleek, strong, and one-of-a-kind!
