 Prop** propeller to reduce drag Mainsheet traveller remains on the coachroof to keep the cockpit clear
**Performance
 Deep Draft Racing keel
 @ 2.30m**

Exterior, Deck & Cockpit

A performance-oriented hull designed **by Philippe
 Briand** with a 3rd generation counter moulded structure
**Injection moulded
 deck** with an exceptional rigidity 40% 300 kg lighter than a traditionally moulded deck of the same size 40% *provides better
 stability and sea
 keeping.* The construction of the deck and hull are certified by the Bureau Veritas

Exterior - Deck

Long **Harken traveller** on
coachroof **Harken genoa tracks**
**adjustable from the
 cockpit** Windlass and large, double roller anchor fitting **9
 opening hatches and 6
 opening ports.** each deck hatch with integrated insect screens and shades

Cockpit

A comfortable and spacious cockpit with **2 separate areas**: Helm area with electronic displays, cup holders, protective handrail, compasses and access to primary winches. Dining area with large table and seating for **6** around a large folding table with indirect lighting, bottle holder, cup holders and handrails for safety and easy movement around the cockpit. Domed ceiling in aft cabins with opening ports extends under the cockpit table and provides headroom, ventilation and light to the aft cabins. Additional storage area under water tight hatch in the cockpit floor provides storage and location for optional generator. **4 spacious cockpit lockers**

Design

Elegant lines that blend perfectly into the existing Sun Odyssey range.

Performance hull designed by Philippe Briand

New generation of interior design

Deck Hardware

Harken winches located near helm stations

(electric winches optional) make sail handling by 1 or 2 people easy and leaves guests in the cockpit undisturbed during manoeuvres. Compass at each helm. **Long Harken traveller for better sail trim and control**

2 coachroof winches

(electric winch to port optional) for easy and safe control of halyards and sheet

Interior

Fine

Contemporary interior design is

Teak

with new satin varnish ensures the rich wood tones for which Jeanneau is known. Light head liner material used on ceiling and along hull sides to create the maximum feeling of space and light. **Indirect lighting under the side deck** for a cosy atmosphere.

Fully-equipped galley

(179L fridge 12V / 85L icebox) and practical **solid surface countertop**. Handrails along under fixed windows, leather-wrapped handrails placed along nav station and companionway for safety and style. Oversized hull ports provide **excellent visibility** of the sea from the saloon whether standing or seated. **Navigation desk** with rollaway top to facilitate use of a laptop computer with power socket under desk.

New generation laminate floorboards

match interior wood and provide long-lasting durability.

Lots of storage

for cabinet, cabinets along hull sides in saloon and cabins, large hanging lockers. **Stylish head compartment** with top-of-the-line fittings and separate shower compartments.

Forward owner's cabin

(version 3 cabins with 2 heads)

Large island berth (2.02 x 1.60 m) with **PREMIUM** mattress for the maximum comfort aboard. Vanity area with flip-up mirror and storage. Seat can be used when vanity is folded up. Upper storage cabinets with gas lifters on each door along the hull sides with indirect lighting underneath. Large hanging locker for the owner's wardrobe. Under berth storage with easy access via a hinged panel provides a space that is 1.5m x 1m for flat storage of pillows, blankets, sweaters, etc... **4 opening hatches** in the owner's suite each with a pleated shade and insect screen for ventilation and light.

Twin aft cabins

all versions

Double berths (2.02 x 1.50 m) with **PREMIUM** mattresses for maximum comfort aboard. Storage cabinets along the hull sides with indirect light underneath. **Dome** under cockpit table provides headroom, light and ventilation. **Closed hanging locker** in each cabin with storage shelf above.
