North River is a well-known boat manufacturer specializing in aluminum boats, particularly designed for fishing and recreational activities. The Seahawk series is one of their popular lines, known for its versatility and ruggedness on the water.

The 2019 North River Seahawk is a 23-foot long boat, built with high-quality marine-grade aluminum, ensuring durability and resistance to corrosion. It has a deep-V shaped hull, which helps provide a smoother ride in choppy waters and enhances stability.

The deck layout of the boat offers ample space for fishing and other recreational activities. There are storage compartments for fishing gear, tackle, and other necessities. The helm station is well-equipped with navigation instruments and gauges for monitoring the boat's performance.

In terms of seating, there is a captain's chair at the helm, and additional seating for passengers or anglers.
