Experienced Sales + Customer Service

The key...great customer service. We love the marine industry and one of our core missions is to help raise the customer service bar in this industry.

However, the internet has completely transformed the way we do business. While traditional sales principles still very much apply (such as building a solid relationship with the customer, earning their trust, adding value, customer qualification, etc), how you get there is now very different. It used to be that a customer valued a solid handshake and an honest smile. In a traditional face to face environment, skilled salespeople could qualify a customer based on body language, personality type, etc. In today's internet age, many buyer

Description: Stock #296647 -

Big, Italian-Built, Fast Express Cruiser and Luxury Party Boat.

TRADES CONSIDERED - 30' to 34' Cruiser

A very motivated seller brings you one of several units custom-specified and built in Italy by Euro Marine for use as a tender and excursion boat for mega-yachts, this long, sleek and fast-performance cruiser shares a blend of qualities that can be found in similar sized and powered boats such as Cigarette, Formula and Fountain, the sum resulting in what for some could be the ultimate fun machine.

Featuring ample bench seating below for a dozen or so, plus cockpit seating for a handful more, she's great for launch or water taxi service, private parties, or just taking family and friends out for a day on the water or some island beach.

All deck gear is generously sized and either 316

stainless or heavy cast aluminum, construction very robust throughout and befitting the quality expected with the original intended use.

The large swim platform has a central notch for the removable dive/swim ladder with sturdy hand rails that lean right up and over the transom, where a large sun pad area over the engine compartment can accommodate several sunbathers.

Under that pad, two big-block, fresh water cooled Mercury 8.1 liter, 425 horsepower engines can get this boat up over 60 MPH and enable her to cruise comfortably at 35. Originally powered by a pair of diesels, the boat was imported from Italy sans engines and repowered with the current engines (at least one manufactured in 2007), with low hours.

Below deck accommodations include a forward berth, port and starboard bench seating, a galley that includes a fridge, stainless sink and stove, and enclosed head with shower and electric toilet. So, for the family wishing to spend full days or weekends on the water the essentials are certainly there.

Because of the changeover to gasoline power, removing two large, heavy in-line diesel engines and replacing with lighter weight, compact V8 engines or greater power, the unused space in the engine compartment is cavernous and can easily accommodate the installation of a generator, dive tank or water toy storage, air compressor, auxiliary tankage and such, it is truly a vessel of multi-purpose potential for both commercial and pleasure boating activities.

Yes, an unusual boat, in fact likely one of a kind here in the US, a head-turner for sure, it might be just the stand-out toy you have been looking for.

We are looking for people all over the country who share our love for boats. If you have a passion for our product and like the idea of working from home, please visit [WhereFreedomTakesYou \[dot\] com](http://WhereFreedomTakesYou.com) to learn more.
