Επιπλέον πληροφορίες

Περιγραφή: This version can accommodate 10 passengers with 4 double cabins and 2 fore peaks. In order to satisfy our regular catamaran customers, Nautitech is introducing its new version with a single wheel. The manoeuvres are carried out from the helm station. A roof water recovery system: This innovation is a real answer to autonomy when sailing long distances. The saline test after the first rainfall can be carried out either manually or automatically via a dedicated reservoir with a 400 litre capacity. This new roof, as well as the possibility of fixing solar panels to it, considerably increases the autonomy of the boat during long crossings. The [Exclusive] finish provides greater comfort and makes

your boat more attractive with a teak cockpit, specific upholstery, a beautifully crafted finish and additional equipment....AIBSAILING offer to you this sailing Catamaran Nautitech 44 in Greece!Bareboat charter or crewed!!..For more details dont hesitate to contact with us at info@aibsailing.com
