bronze hardware
• Dual density
upholstery cushions

The 3080 Coastal Runner blends all the design features of the 3070 with an all weather cabin design. The standard model has a high quality aft canvas enclosure that can be easily removed on warm weather days. This option gives an open feel to the salon and aft cockpit, yet when in place the canvas is watertight and holds in the heat or air-conditioning. For colder climates a solid Alaska bulkhead is available.
