About Us: POP YACHTS SALES
Experienced Sales + Customer Service
The key...great customer service. We love the marine industry and one of our core missions is to help raise the customer service bar in this industry.

However, the internet has completely transformed the way we do business. While traditional sales principles still very much apply (such as building a solid relationship with the customer, earning their trust, adding value, customer qualification, etc), how you get there is now very different. It used to be that a customer valued a solid handshake and an honest smile. In a traditional face to face environment, skilled salespeople could qualify a customer based on body language, personality type, etc. In today's internet age, many buyer

Built: 1994

Description: Stock #226620 -

Seaworthy, comfortable, solid hull and deck!
Recently blasted and painted! Low hour engine!

This steel hull vessel was designed and built in Maine as a motorsailer however, the current owner has most recently used her to haul freight to and from small islands off New England coast. Completed in 1994, this vessel features many desirable traits for those looking to start a project to turn this into the boat of their dreams.

With its fine lines and powered by a John Deere 6068 with 130HP, she is extremely efficient and cruises at 8 knots on only 1.5 gallons per hour! The seller states that due to the hull's shape, it never 'pounds' in a heavy sea and he has not operated a more seaworthy or comfortable vessel in his career.

This is a solid project boat with excellent potential to

finish exactly to the new owner's desires!

Call for more information today!
