Experienced Sales + Customer Service

The key...great customer service. We love the marine industry and one of our core missions is to help raise the customer service bar in this industry.

However, the internet has completely transformed the way we do business. While traditional sales principles still very much apply (such as building a solid relationship with the customer, earning their trust, adding value, customer qualification, etc), how you get there is now very different. It used to be that a customer valued a solid handshake and an honest smile. In a traditional face to face environment, skilled salespeople could qualify a customer based on body language, personality type, etc. In today's internet age, many buyer

The cushions are in great condition as is everything
else. With a killer stereo system you are ready to
start the party. Down below you will find a spacious

v-berth for two with cushions that look like new and plenty of storage underneath.

The table has been replaced from wood- as most boats of this era have- to fiberglass. Two bucket seats on either side make this a great spot for drinks or food on a rainy day. The ice box is also fiberglass and on the opposite side of the cabin.

Round this out with an enclosed head and you have a boat built for both speed and comfort. The extra long bow is the perfect venue for lounging in the sun. And, the pop up cleats are just another example of the detailing of this boat. This boat comes on a really nice trailer so you can take her wherever you want. This boat has had full maintenance every year. While the boat did have a little use in CA in saltwater when it was new, the boat has been used in freshwater most of its life and is always stored indoors.
