Description

Stock #510027 - 30 Ft LOA Welded Aluminum Cruiser. Twin Honda 250s (182 Hrs), Bow Thruster, Garmin LiveScope & Solar. Elite Offshore Machine! This updated 1980 Custom 26 Welded Aluminum Cruiser (30 total LOA with bracket and motors) is an offshore machine ready for serious blue-water fishing or coastal cruising. The heavy-gauge aluminum hull was stripped down to the bare metal and structurally reinforced, delivering maximum durability and structural integrity. For exceptional dockside maneuvering and stress-free handling in high winds, the boat features an integrated tunnel bow thruster. It is powered by twin Honda 250HP four-stroke V6 outboards with under 185 original hours, paired with a heavy-duty SeaStar hydraulic steering system and modern digital gauges. Cruise comfortably at 22 knots or top out at 30 knots with a 90-gallon fuel capacity. The advanced helm electronics suite includes a Garmin GPSMAP 8612xsv 12-inch touchscreen, Panoptix LiveScope XR with a Black Box, traditional sonar, and a dedicated high-definition rear-view deck camera monitor. A massive custom solar array is mounted flush to the cabin roof to handle off-grid battery charging. For cold-weather comfort, the enclosed pilothouse features a premium Dickinson Marine Newport solid-fuel cabin heater with an insulated flue stack. This marine fireplace burns wood, charcoal, or logs to provide dry, cozy radiant heat while completely eliminating cabin condensation on early morning runs. The weather-protected pilothouse features premium hardwood-style flooring, a four-person dinette with a deep-finish wooden table, and a freshwater kitchen sink. Below deck, the spacious forward V-berth offers twin cushioned berths, custom wood shelving, and dual opening portholes, alongside a fully private

enclosed marine head with a solid wood door. The expansive aft cockpit features heavy-duty safety rails and rocket-launcher rod holders. A 2022 Venture dual-axle bunk trailer is also included.
