Island Hopper Boats are known for their rugged commercial-built hulls, which are designed to last decades. The boat was repowered with a 2021 Cummins 380-horsepower engine and is matched with a ZF gear. The engine functions can be seen on the helm with the digital display. Current engine hours are 2073. This boat has been well updated and maintained throughout the years. Electronics consist of a VHF radio, autopilot, and large-screen MFDs. radar, 5000-watt inverter, battery charger, engine display, and a bow thruster.
