Description

Stock #493315 - Freshwater! Low Hours! Excellent Condition! Mercury 150XL Engine! Composite Stringers! No wood to rot out! Enclosed Head! Family fun and fishing machiThe 2021 Crownline Finseeker 200CC is a compact yet highly capable center-console fishing boat designed to deliver a strong blend of offshore-inspired utility, family-friendly comfort, and Crownline's polished fit and finish. At approximately 20 feet 6 inches overall, with an 8-foot 6-inch beam and a 19-degree deadrise, this model offers a stable, confident platform that remains easy to trailer, dock, and handle while still providing the room and capability expected from a serious fishing-focused boat. Its modified-V hull is built to provide a balanced ride, helping the boat move smoothly through chop while maintaining predictable handling and responsive performance. The layout of the Finseeker 200CC is designed to be fishable from bow to stern, giving anglers open movement around the console while also preserving comfortable seating areas for guests. Forward bow seating can be converted into a casting platform with removable cushions and lean-back seating, making the bow equally useful for fishing, lounging, or cruising. The cockpit is self-bailing and thoughtfully arranged, with storage integrated throughout the boat to keep gear organized and the deck uncluttered. A slide-away rear seat adds versatility at the transom, allowing passengers to relax when cruising while opening up valuable fishing space when it is time to work lines or land a catch. Fishing amenities are a major strength of the 200CC. Built-in rod holders, including side-wall and aft rod storage, provide convenient access to tackle and rods throughout the boat. The raw-water washdown makes cleanup easier after a day on the water, while the anchor locker with stainless steel anchor roller and 200 feet of line adds practicality for anchoring over fishing grounds or spending time at a favorite cove. The boat's wide beam helps maximize usable deck space, and the center-console arrangement gives the operator excellent visibility while keeping the helm centrally positioned for balance and control. At the helm, the Finseeker 200CC presents a clean and functional command center with hydraulic steering, a deluxe steering wheel, a windscreen, a compass, and dual Garmin Echomap 7 inch displays. Crownline equipped this model with upscale touches such as premium Wet Sounds audio with multiple speakers, LED cockpit lighting, and a well-organized battery management system with dual batteries and power charger/conditioner. Powering this 2021 Finseeker 200CC

is a freshwater-use-only Mercury 150 HP outboard with 118 hours. With a dry weight of about 4,205 pounds and fuel capacity of 71 gallons, the boat is built to support full-day use on the water with enough range for fishing runs, cruising, and recreational use. The enclosed privacy compartment with a portable toilet and opening portlight is a notable convenience in a boat of this size, making longer days aboard more practical for families and guests. Cushioned bow seating and thoughtful passenger accommodations help broaden the boat's use beyond fishing alone. For a buyer seeking a trailerable center-console boat with a wide beam, enclosed head, open fishing layout, quality audio, ample seating, and capable outboard performance, the Finseeker 200CC stands out as a well-rounded option in the 20-foot class.
