Description

Stock #502522 - Upholstery great! Only 225 Hours! 200 HP. 2025 trailerThe 2020 Glastron GTD 220 is a 22-foot deck boat made for big groups and all-day fun on the water. It combines the sleek styling of a bowrider with the massive floor space of a pontoon boat. This model stands out because it solves a common problem for boaters: wanting to invite all your friends without feeling crowded. By using every inch of its wide frame, Glastron built a vessel that feels much larger than it actually is. At the heart of the boat is Glastron's famous Super Stable Vee (SSV) hull. This unique hull shape drops down quickly into the water to slice through chop. It also keeps the boat level when passengers move from side to side. Because deck boats hold a lot of people, stability is very important. The SSV hull makes sure the ride stays smooth, dry, and safe, even when the boat is loaded up to its maximum capacity of 13

passengers. The layout of the GTD 220 is all about comfort and choices. The bow features deep, wrap-around lounge seats with high backrests. In the cockpit, U-shaped bench seating lets everyone face each other for easy conversation. Underneath almost every cushion, you will find deep storage compartments. There is also a massive ski locker built right into the floor to keep wakeboards and life jackets out of the way. Getting in and out of the water is a breeze on this boat. The stern features a wide, integrated swim platform that sits close to the waterline. A recessed telescoping ladder makes reboarding simple after a swim. There is also a walk-through transom path, so passengers do not have to step on the nice vinyl cushions when walking from the swim platform into the main cockpit area. For hot sunny days, a standard Bimini top folds out to offer plenty of shade over the main seating area. When it comes to power, the GTD 220 relies on an outboard motor setup. The outboard design is highly praised because it frees up even more storage space inside the boat where an inboard engine would normally sit. It also makes maintenance easier and allows you to tilt the motor completely out of the water in shallow bays. Overall, the 2020 Glastron GTD 220 is a highly versatile family cruiser. It has the speed and agility to pull teenagers on tubes, the stability to handle rougher lake water, and the sheer space to host a large weekend party. It remains a highly sought-after model on the used boat market for families who want one boat that can do it all. This listing has now been on the market a couple months. Please submit any and all offers today! Reason for selling is not using enough any longer. At Pop Yachts, we will always provide you with a TRUE representation of every vessel we market.
