About Us: POP YACHTS SALES
Experienced Sales + Customer Service
The key...great customer service. We love the marine industry and one of our core missions is to help raise the customer service bar in this industry.

However, the internet has completely transformed the way we do business. While traditional sales principles still very much apply (such as building a solid relationship with the customer, earning their trust, adding value, customer qualification, etc), how you get there is now very different. It used to be that a customer valued a solid handshake and an honest smile. In a traditional face to face environment, skilled salespeople could qualify a customer based on body language, personality type, etc. In today's internet age, many buyer

2007 CHAPARRAL 350 SIGNATURE - Custom
A/C in the Helm, Maintenance up to date!

Your condo on the water! Custom 16,000 BTU
cockpit air conditioning system increases the
climate-controlled square footage into the cockpit!

Chaparrals are known for their high-quality builds,
and it certainly shows when you see this 350
Signature. Chaparral renamed this same hull in
future years to the 370 because it actually has an
LOA of 37'.

As you board you will notice the large, extended
swim platform that gives you plenty of walking
space and a very nice area to store some of the swim
toys when anchored or offshore.

Entering the cockpit, you will see a complete

isinglass enclosure that has no cracking or yellowing. The seller has custom Sunbrella covers that protect the entire enclosure from sun damage when the boat is not being used. The isinglass can be removed in panels for some airflow or completely removed on those nice days. The seller invested a significant amount of money having a custom air conditioning unit installed in the cockpit to almost double the useable space on those hot and humid summer days in South Florida.

Once at the helm you'll appreciate the well laid out dash that has all the controls and engine diagnostic gauges in an easy-to-read layout. Some of the electronics include a Garmin GPSmap XSV, VHF radio, digital compass, search light, bow thruster and windlass anchor controls. The cockpit area has seating for at least 8 guests and includes a wet bar with an ice maker below and behind a cabinet enclosure.

Entering the cabin below you will find a dinette U-shaped sofa with a removable table and fill in cushions for additional sleeping options. Turning aft you will see the spacious aft cabin bunk with a removable table and fill in cushions to accomodate even more overnight guests.

Located in the bow section is a V-Berth with queen size bed and private TV. The V-berth and aft cabin can be closed off via an accordian door slide.

The galley has everything you need for extended stays at the dock or anchored in the bay. Features and appliances include a sink with faucet, automatic coffee maker, refrigerator, electric stove, microwave oven, cabinet storage and more.

Located at the base of the steps is a full bathroom with sink, shower, shower curtain, exhaust fan and vanity with storage.

She is powered by twin Mercruiser 8.1S Horizon engines with V-drives. A Kohler 7.3 KW generator powers all of the appliance and dual air conditioning

systems when disconnected from shore power.

*Sellers personal possessions in the closets/storage areas are not included in the selling price, ie, money, dishware, pots/pans, mobile VHF, silverware etc.
