Experienced Sales + Customer Service
The key...great customer service. We love the marine industry and one of our core missions is to help raise the customer service bar in this industry.

However, the internet has completely transformed the way we do business. While traditional sales principles still very much apply (such as building a solid relationship with the customer, earning their trust, adding value, customer qualification, etc), how you get there is now very different. It used to be that a customer valued a solid handshake and an honest smile. In a traditional face to face environment, skilled salespeople could qualify a customer based on body language, personality type, etc. In today's internet age, many buyer

2013 NauticStar in Excellent Condition! 250 Hours on a 150HP Yamaha Four Stroke Engine! Ready to Fish!

This 2013 NauticStar is a very versatile vessel, to say the least. It has a Composite hull that is super durable in both Fresh and Saltwater environments. It is equipped with a Modified Vee hull with an 11in draft but the vee will cut through some very choppy water without feeling every bump I have never seen any composite-built boat with delamination in all my years in boating.

The Yamaha 150 is the most popular outboard of all time for a reason. It is an inline 4 cylinder 4 valve per cylinder engine which makes which maximizes the efficiency in the combustion chamber, which means better power per pound of weight and

superior fuel mileage. It even has an EZ front-mounted freshwater flush to hook up to your hose if you took it into Saltwater.

The quality of NauticStar is obvious and paired with the most popular outboard ever built is a combination that is hard to beat! Get your offer in because this boat will sell quickly.
