Experienced Sales + Customer Service

The key...great customer service. We love the marine industry and one of our core missions is to help raise the customer service bar in this industry.

However, the internet has completely transformed the way we do business. While traditional sales principles still very much apply (such as building a solid relationship with the customer, earning their trust, adding value, customer qualification, etc), how you get there is now very different. It used to be that a customer valued a solid handshake and an honest smile. In a traditional face to face environment, skilled salespeople could qualify a customer based on body language, personality type, etc. In today's internet age, many buyer

Well maintained 2016 Mastercraft X26! Ready to hit the water!

Located in Lafayette La this is a 2016 Mastercraft X26 boat that comes with a 2020 Mastercraft X26 trailer.

The boat has impressive features such as it is powered by the most powerful naturally-aspirated, production marine engine: Ilmor's 7.4L MPI engine that produces 522 horsepower, plus a remarkable sound system from JL Custom Audio, onboard heating, and aquamarine flooring.

The X26 is a model of luxury and power, with its 26-foot size (28.33' LOA), yacht certification, and unbeatable performance.

The tower can be manually raised and lowered and you can connect your GoPro to the video screen for playback.

The X26 has a unique deep-v hull and open pickle-fork bow that not only looks amazing but also makes it easy to handle in rough waters.

The helm really stands out with billeted aluminum surrounding the gauges and a handy refrigerator under the seat behind the driver.

For monster wave making there is a fixed triple-tank ballast system, two additional water bags at the stern and three wake-shaping tabs at the stern.

The ZFT4 tower with port and starboard tow points can be raised and lowered with the flip of a switch. It is fitted with board racks and lighted can speakers. There is also a removable pylon that is stored in the engine compartment.

When you first walk into the swim platform of the X26 you're going to notice the two jump-style seats molded into the transom facing the stern. These seats are as comfortable as they look. There are grab handles molded into the deck, cup holders and a stereo control unit.

It can comfortably accommodate up to 18 people and has smart telematics and SurfStar technology for a seamless experience.

This boat is in a league of its own, with premium amenities and an eye-catching design and graphics that are sure to turn heads wherever it goes.

We are looking for people all over the country who share our love for boats. If you have a passion for our product and like the idea of working from home, please visit [WhereFreedomTakesYou \[dot\] com](http://WhereFreedomTakesYou.com) to learn more.

Please submit any and ALL offers - your offer may be accepted! Submit your offer today!
