	Beautiful and fast boat that turns heads! Engines are Updated!		
	A custom-built and specialty-wrapped 41 Apache ocean racer made from Kevlar, it has 2 925 HP blown 557 cubic inch dart head and block engines, super cyborg transmissions, and 5 hrs. on them.		
	Wet sump number 6 Mercury Racing drives with newer gears and rebuilt transom assemblies.		
	The boat has a full cabin and was sent to Apache in 2010. It was completely resigned, lightened, and set up for number 6 drives. Also, a step was added to the bottom, the same step used on the cigarette models by Chris Merrill, who builds race boats.		
	Terry Spenter rebuilt the 871 Littlefield superchargers and tipped them with Teflon. The carbs are AED brand.
