Experienced Sales + Customer Service

The key...great customer service. We love the marine industry and one of our core missions is to help raise the customer service bar in this industry.

However, the internet has completely transformed the way we do business. While traditional sales principles still very much apply (such as building a solid relationship with the customer, earning their trust, adding value, customer qualification, etc), how you get there is now very different. It used to be that a customer valued a solid handshake and an honest smile. In a traditional face to face environment, skilled salespeople could qualify a customer based on body language, personality type, etc. In today's internet age, many buyer

Beautiful walk around! Great family or fishing boat!

This 2004 Seaswirl 2301 Striper is a walk-around fishing boat able to take a lot of surf, maintain good speed and is nearly unsinkable with it's foam filled fiberglass body. Sporting a deep-v hull shape and 270 horsepower 5.0L Volvo Penta engine, this boat can reach almost 50 mph in calm seas.

An interesting design feature of this walk-around is the hard top cover and fully enclosed below cabin. Able to sleep up to two persons in its v-berth, the interior has nearly 6.5' of headroom so no more stooping when you go below.

In the cabin is a refrigerator, marine toilet, an installable table, sink and refrigerator. This is great comfort when the seas are cold and the wind is howling.

This boat comes with all the standard Seaswirl

features and some extras provided with the sale. These include electric crab puller, 3 ez pull crab pots, brand new Scotty Downrigger, inflatable life raft, gps 12 navionics system with a halo radar and a large led light on the hardtop.

This boat is ready to fish with two live wells, bait well and plenty of additional storage for your catch. Come to Sacramento CA and see this one to get ready to fish.

This is a brand new listing, just on the market this week. Please submit all reasonable offers.

Reason for selling is no longer using it.
