Overview

Overview: Our 74' Pilothouse Motor Yacht is the flagship of our fleet. And as such represents everything we have learned about luxurious time spent afloat. While only 6' feet longer than our 68' Pilothouse, it offers almost 40% more living area. This is due both to the extremely large 20' beam and her skillfully designed accommodations. This increased volume can easily harbor three or four staterooms with en suite facilities.

The salon is estate sized as is the enormous fly bridge entertainment area. Because of the flush deck design the 74' offers an unparalleled ambience of openness and freedom. At first glance, the profile is, at once, elegant and athletic. The lines forecast her ability to move quickly and quietly at up

to 25 knots to her next destination. She is truly queen of our fleet as she would be in yours.
