Ek Bilgi

Açıklama:

STARLIGHT is a unique vessel. She was specifically designed and built for self-sufficient exploration in remote places. Her design criteria mission statement was for a fast, very competent, long range, owner-operated vessel. STARLIGHT can cruise at 20 knots, and has a range of over 850 miles. Her construction detail includes several watertight bulkheads, special engine mounts, and gear and equipment all chosen to make her ready to take on some pretty severe offshore conditions.

STARLIGHT is a boat with competencies that few others can match. She now awaits a new owner and is ready to be truly put her through her paces.
